Hello my name is Amelia and I live in Sweden. Me and my family live in a new 5 room Apartment which has just been renovated. I live in the same room as my mom and dad until my sister moves out. What I dislike with my room is that I can't sleep alone but I often be alone by the day. My room looks like cube with white walls. I have a computer and a bed. I have a blue curtain and a brown desk where my computer stands. Where I live there are some shops outside the best thing is that it's a candy store outside. I think that it's good where I live. ☺
